INTRODUCTION

- Most business templates sold as "international" are a UK document with the currency symbol swapped. That falls apart quickly in Japan, where client expectations, contract conventions and legal requirements all work differently.
- So we built a separate range. Every document in it was written for the Japanese market from the start: the forms, the contracts, the systems and the training.

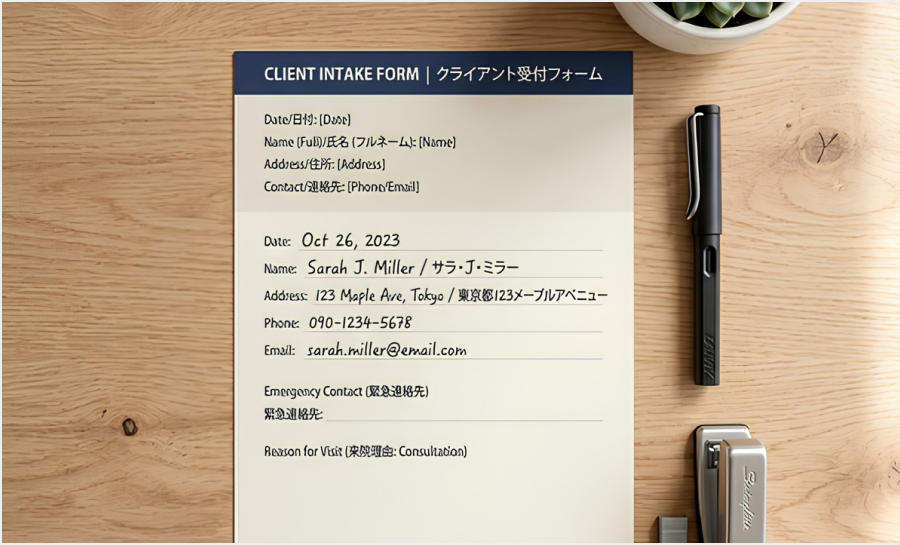

Cleaning Business CRM Template for the Japanese Market — £115.00

Clients, bookings and repeat work in one place.
